Welcome

.....

Are you ready to join the new cryptocurrency generation? Fargocoin is a unique blockchain platform designed to increase network security and improves the limitations and functionality of initial cryptocurrencies such as Bitcoin. Fargocoin provides for everyone without huge hashing power get opportunity to earn coins.

Vision & MiSsion

Clients

We value our clients as business partners. We are dedicated to providing the highest quality of service to them and will treat their goals and objectives as our own. We will increase their competitive advantage by consistently exceeding expectations.

Vision

Our vision is to be the leading provider of crypto technology.

Vision & MiSsion

MISSION

Our mission is to create open financial system Worldwide.

WORKS EVERYWHERE, ANYTIME

Just like with email, you don't need to ask your family to use the same software. Just let them stick to their own favorites. They are all Compatible as they use the same open technology. The Fargocoin net work never sleeps, even on holidays!

SECURITY AND CONTROL

Fargocoin transactions are secured by military grade cryptography. Nobody can charge you money or make a payment on your behalf. Fargocoin can give you control over your money and a strong level of protection against many types of fraud.

FAST INTERNATIONAL PAYMENTS

Sending Fargocoins across borders Is as easy as sending them across the street. There are no banks to Make you wait three business days, no extra fees for making an international transfer, and no special limitations on the minimum or maximum amount you can send.

Proof of Stake

POS

Proof of Stake is the best alternative solution to the original Proof of Work system that Bitcoin pioneered.

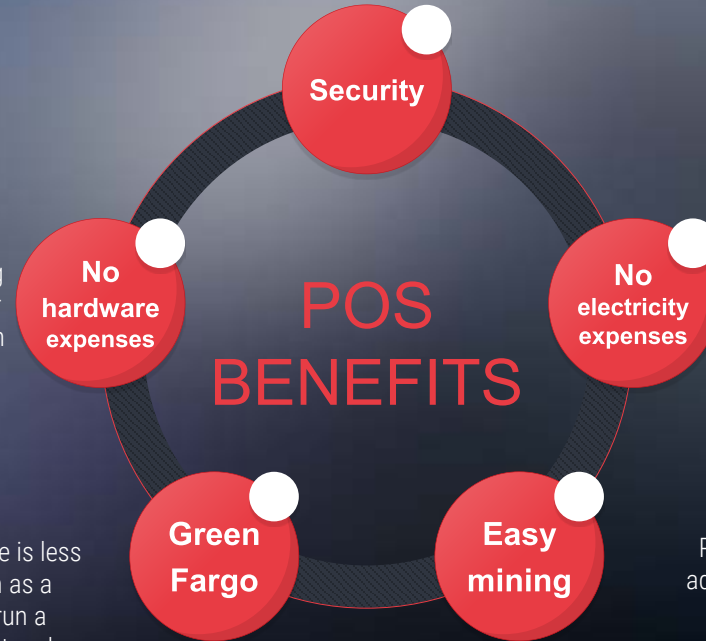

A proof-of-stake system provides increased protection from a malicious attack on the network.

PoS not requiring expensive hardware to mine and creating more nodes & connections for everyone to use, thus strengthening the network as a whole.

Since Proof of Stake is less energy, it is seen as a greener way to run a cryptocurrency network.

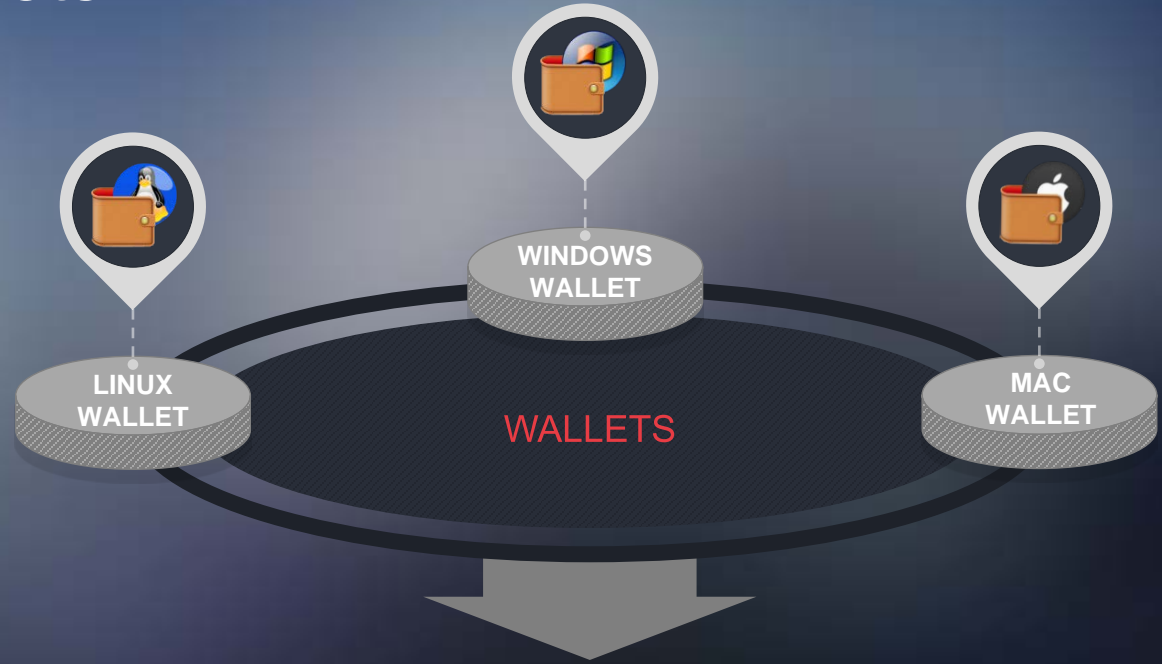

PoS not requiring spending electricity to mine, PoS creates an incentive for all to keep their wallets running 24/7.

PoS not requiring any additional knowledge to start mining, Just launch your wallet.

Fargocoin wallets

Fund your wallet and start making payments with merchants and users. Fargocoin wallets are full Fargocoin clients and build the backbone of the network. All wallets offer high levels of security, privacy, and stability.

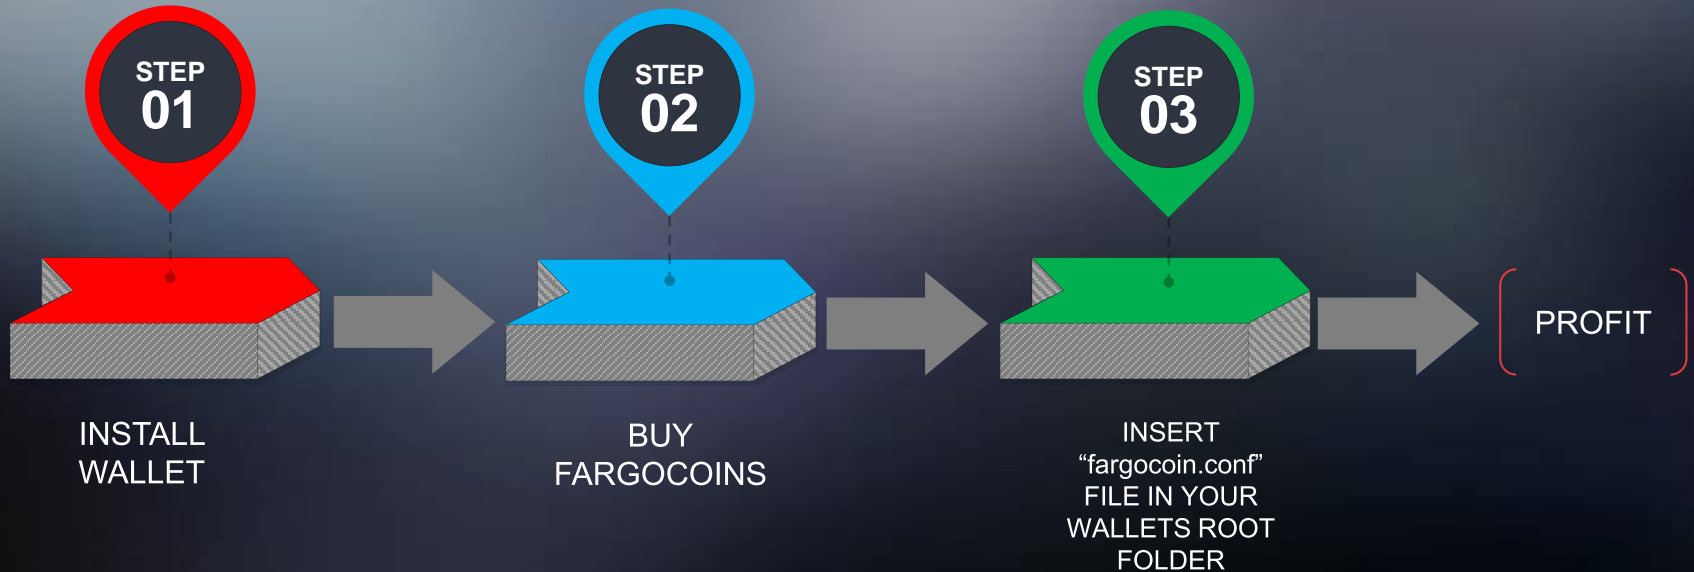

DOWNLOAD

All wallets are available to download on Fargocoin main website.

Mining

Proof-of-stake (PoS) is a method by which Fargocoin blockchain network aim to achieve distributed consensus. PoS asks users to prove ownership of a certain amount of Fargocoins or their "stake" in the currency by staking it in a vault or share. Proof of stake is a method of securing the network. Through various means.

It is a system that rewards the miners for securing the network. They do this by minting POS blocks. Pos blocks are similar to Pow or proof of work blocks. Except no power hungry mining is required to earn them.

MINING PROFIT

Step. 01
Buy package

Step. 02
Receive tokens

Step. 03
Send tokens to split

Step. 04
Get doubled tokens and send to mining

Final
Receive Fargocoins

Mining profit divided between two wallets.
Wallet – 60%
Mining account – 40%
PS: From mining account you can buy tokens.
There is no hold of funds.
